

# play it! roll-a-creature

## maker checklist

- colorful craft felt
- scissors
- paper + markers
- pair of dice

we used craft felt here, but you can also easily use construction paper

## HOW TO

- 1 cut a large, simple shape for the monster body.
- 2 cut all sorts of different smaller shapes for the eyes, arms, legs, teeth, hair, spots, tails, get creative!
- 3 design your monster mash up instructions. you should have a set of 6 instructions if you are using 1 die, or 12 instructions if you are using 2 dice. use our example, or create your own!

### the randomizer

rolling the die or dice is a way to randomize your game. it is designed to mix up how a game is played multiple times - or why you'll never end up with the same creature twice!
