

# create it! scratch-off cards

## maker checklist

- paper + markers
- clear packing tape
- masking tape
- acrylic paint + brush
- liquid dish soap

- 1** make your card with a secret scratch-off message, and cover this section (only!) with a piece of clear packing tape.
- 2** mask the top and bottom with masking tape for a clean edge. TIP: try the tape first to make sure it doesn't tear the paper.

- 3** create the scratch-off mixture by mixing 2 parts acrylic paint with 1 part dish soap – stir gently so you don't create too many bubbles!
- 4** paint over your message and let dry completely. (the "completely" is important!)
- 5** peel off the masking tape and share your secret scratch-off card with a friend!

scratch with a coin to reveal the secret message!
