

# upcycle it! no-sew t-shirt tote

this one takes a little patience to tie all those knots but the result is a cool \*and\* useful tote!

lay the t-shirt flat and cut off the arms just past the seam. then cut away the neckline in a deep u-shape, and cut off the hem and discard. now you already have your main shape!

cut strips up from the bottom of the tee, about 4-inches long and ½-inch wide. give each strip a good tug! ultimately, you want them long enough to tie in double knots (step 3) and thin enough to string with a bead (optional, step 4).

from left to right, tie the front strip to the back strip; double-knot and pull tight. do it again! this time tying each to the adjacent strip to close small holes.

embellish with beads and it's ready to wear!
